RESOURCE LINKS:

Use your phone to scan the QR code or type in the link to access these helpful resources.

IDEM Indiana Stormwater Quality Manual

Planning and specification guide for effective erosion and sediment control and post-construction water quality.

<https://tinyurl.com/indianastormwatermanual>

Green Infrastructure Modeling Tools

Use these models to predict the environmental outcomes of different design and management approaches.

<https://tinyurl.com/GIModeling>

Green Infrastructure Cost-Benefit Resources

Cost comparison tools and case studies to demonstrate realized cost savings of conservational and conventional management.

<https://tinyurl.com/GICostBenefitAnalysis>

Grow Indiana Natives Certification Program

Indiana Native Plant Society's incentive program for growers and designers to be listed under their exclusive Grow Indiana Native's directory.

<https://indiananativeplants.org/landscaping/gin-home/>

EPA Land Use and Green Infrastructure Scorecard

A guide for municipalities to review local plans, policies, and municipal practices to identify opportunities to protect water resources while maximizing community benefits.

<https://tinyurl.com/EPAScorecard>

Indiana Terrestrial Plant Rule

Explanation and guidance on which invasive plants are no longer allowed to be sold, purchased or exchanged in Indiana due to the damage they cause to native Indiana ecosystems.

<https://tinyurl.com/IndianaTerrestrialPlantRule>

Prairie Restoration: Conservation Reserve Enhancement Program

USDA incentive program for farmers, non-profits, private companies, and foundations to establish permanent resource conserving plant species.

<https://tinyurl.com/ConservationReserve>

Stormwater Landscape Maintenance Training

The Stormwater Landscape Maintenance Training will help any responsible individual for maintaining property understand their obligations to any stormwater features that may be present.
