

Install and Maintenance Plan

Step 1: Documentation

1. Fill out an application.
*Include an aerial map of your property with an outline of the project area.
2. Discuss installation details with Beyond Lawns representative.

Site Name: _____ Size of
Property: _____

Plan Creation Date: _____ Selected Seed Mix:

Soils Type: _____

List or attach the list of plant species:

Key Details: (weed pressure, species of concern, site history, soil characteristics,
specific native plant needs, etc.)

Step 2: Site Preparation

How well you prepare your site will be an important component of your project's success. The goal is to eliminate perennial weeds and grass to allow for proper germination. Annual or biennial weeds can be addressed in the maintenance phase. Information on the different site preparation methods can be found on the Beyond Lawns webpage or through a Beyond Lawns Representative.

Select your site preparation method:

- Solarization Soil Inversion Herbicide Application Sod Removal
 Smother Cropping Sheet Mulching

When will site preparation be complete? _____

Step 3: Planting Method

Discuss and select the appropriate planting method for your site. Information on the different planting methods can be found on the Beyond Lawns webpage or through a Beyond Lawns Representative.

- Broadcasting Drop-Seeding Native Seed Drilling Transplants

Selected Planting Date: _____

Step 4: Maintenance

Consistent maintenance will be the key to the success or failure of your prairie. Select and plan for which maintenance practices are required for your property. Information on the different maintenance methods can be found on the Beyond Lawns webpage or through a Beyond Lawns Representative.

- Mowing for Diversity: _ Seasonal Mowing_ Rotational Mowing
- Mowing for Weed Control
- Hand Weeding Grass Selective Herbicide Prescribed Fire
- Spot Spraying Weed removal around the edge of the site Irrigation Grazing

Place each selected maintenance method in the appropriate season.

Seasonal Maintenance Plan:

Spring:

Summer: _____

—

Fall: _____

—

Winter: _____

—
